

Ecofriendly solutions for water....

Water and Waste Water Treatment Solutions

About Us

A progressive organization engaged in Conceptualization Design, Manufacture, Supply, Erection and Commissioning Solutions in the form of Treatment Plants for various requirements in water segment. Our in depth understanding and knowledge of the discipline has enabled us in manufacturing products as per the specification provided by our client. Growide Enviro Solutions offers as proven environmentally friendly and technologically advanced water treatment and purification solutions.

We execute Commercial & Industrial turnkey sewage treatment plant (STP), Effluent Treatment plant (ETP), Water Treatment Plants (WTP), UF plants, RO plant, DM Plants projects. Our organization consists of a group of highly qualified and experienced engineers having progressive outlook and pragmatic vision with vast experience in handling various projects in Engineering, Residential, Industrial, Chemical, Fertilizers, Cement & Petrochemical industry; we also handle commercial projects, sports complexes construction projects etc.

Sewage Treatment Plant (STP).

Why we need STP?

- To reuse water after treatment for gardening, Landscaping, Toilet Flushing etc.
- To minimize scarcity of water during summer sessions.
- Safe Disposal of sewage water as per PCB norms.

Applications

- Hotels
- Hospitals
- Malls
- Commercial complexes
- Residential colonies
- Industrial Applications

Technologies

- Moving Bed Bio Reactor (MBBR)
- Sequential Batch reactor (SBR)
- Extended Aeration (EA)
- Membrane Bio Reactor (MBR)

Effluent Treatment Plant (ETP).

Why we need ETP?

- To reuse water after treatment for various processes, operations after applicable treatment scheme.
- Safe Disposal of Effluent as per PCB norms.

Applications

- Industries like Chemicals, Fertilizers, Manufacturing units, Electroplating, Automobiles, Sugar, Textiles, Paper & Pulp, Dairy etc.
- Hospitals
- Laboratories
- Car Washing centers.
- R & D institutions.

Water Treatment Plants (WTP)

WTP includes

- Filtration Plants
- Softener Plants
- Ultra Filtration Plants (UF)
- Demineralised Plants (DM)

Applications

- For Boiler Feed Water as per requirement.
- For Cooling tower make up.
- For Utility water.
- For industrial processes & Unit operations.

RO Plants

Applications

- Drinking water purification.
- Water & waste water purification.
- Industrial application for process, unit operations.

Services:

- Design, supply, erection & Commissioning of STP, ETP, WTP, RO etc.
- Operation & Maintenance of plants.
- Annual Maintenance contracts.
- Supply of equipments, materials like MBBR media, Tube deck media, Diffusers, Sand Media, Carbon Media, Membranes etc.
- Retrofitting & Re-commissioning of Plants.
- Servicing of Filtration Plants.
